RE: Retirement Announcement

Dear client:

It is with mixed feelings that we announce the retirement of our Senior Applications Consultant, Gloria Kilpatrick, effective September 15, 2017. Although we will all miss having Gloria in the office, she is taking a well-earned opportunity to spend time with her husband Tom, their grandchildren, and the many dogs who are their "other kids".

This was Gloria's second career, having worked as a Medical Technologist, before going back to school to earn her undergraduate degree in interior design and falling in love with lighting at the same time. She earned her LC certification from NCQLP in 2010 and served as a member on the Illuminating Engineering Society's Healthcare Facilities Lighting Committee.

Gloria has been a part of our office family for almost 10 years, always striving to provide the best possible service, through honesty and hard work, to our clients. The staff at LAS will continue this theme as we support you in the future.

We wish our friend and colleague many happy moments and peaceful opportunities in retirement.

Sincerely,

A handwritten signature in cursive script that reads 'Jennifer'.

Jennifer and the LAS staff
