

IES Recognizes Five Aleddra Products

Better Light for a Better Life

Aleddra, a Seattle-based high-tech company, announces today that five of its LED lighting products have been recognized by the IES Progress Report Committee (PRC) as unique and significant advancement to the art and science of lighting. This recognition by the IES Progress Report Committee is a strong endorsement that Aleddra is one of the most innovative companies in the LED lighting industry. Here are the five products recognized by IES:

- **Gen2 Emergency T8 Tube:** this patented, lightweight T8 comes with a built-in battery that can be turned on/off via a wall switch; battery life (90+) minutes.
- **AireLux Air Purifier:** is an antiviral air purifier *plus* a configurable circadian **LED floor light**; it can effectively clean the air in a 600 sq. ft. room every hour and enables the user to set his/her own preferred daytime and nighttime colors.
- **Circadian Overbed Light:** this aesthetically designed patient over bed light fixture is finished in an antiviral self-cleaning coating, has four lighting modes, the beam-angle is adjustable and the circadian light color can be modified to help in the patient's recovery.
- **SureFit PL Convertible Lamp:** this dual-mode (Type A+B) PL lamp features adjustable beam angle, extended arm, rotatable base, and can be mounted horizontally or vertically from a standard down light.
- **Air-Purifying Circadian Desktop/Tabletop Lamp:** this circadian lamp is controllable via a cellphone app and its air-permeable lamp shade filters air-borne bacteria and viruses. This is an ideal personal desktop/tabletop air purifier with an adjustable circadian schedule.

The Gen2 Emergency T8 Tube and the SureFit PL Convertible Lamp are now for sale in the US. The other three products will be available by the end of 2019. For additional information on any of the (5) products, please email info@aleddra.com or call us at 425-430-4555.
