

Dear Partners,

In light of the recent tariff increase, MODA Light is pleased to announce that we **will not** be increasing the prices on any of our product.

MODA values our partners, which is why not only will we be absorbing the 25% tariff increase, but in an effort to help you win as much business as possible, MODA has decided to reduce prices on select items throughout our product families. In this time of price increases and increasing manufacturing costs we encourage you to take full advantage of these prices.

We value your partnership and look forward to collaborating with you on future projects. Please reach out to your sales representative for any questions and to receive updated pricing. Thank you for your business and continued support!

Regards,
